FOREWORD

The National Curriculum Framework 2005 (NCF 2005) recommends bringing work and education into the domain of the curricular, infusing it in all areas of learning while giving it an identity of its own at relevant stages. It explains that work transforms knowledge into experience and generates important personal and social values such as self-reliance, creativity and cooperation. Through work, one learns to find one's place in the society. It is an educational activity with an inherent potential for inclusion. Therefore, an experience of involvement in productive work in an educational setting will make one appreciate the worth of social life and what is valued and appreciated in society. Work involves interaction with material or other people (mostly both), thus creating a deeper comprehension and increased practical knowledge of natural substances and social relationships.

Through work and education, school knowledge can be easily linked to learners' life outside the school. This also makes a departure from the legacy of bookish learning and bridges the gap between the school, home, community and the workplace. The NCF-2005 also emphasises on Vocational Education and Training (VET) for all those children who wish to acquire additional skills and/or seek livelihood through vocational education after either discontinuing or completing their school education. VET is expected to provide a 'preferred and dignified' choice rather than a terminal or 'last-resort' option.

As a follow-up of this, the NCERT has attempted to infuse work across the subject areas and also contributed in the development of the National Skill Qualification Framework (NSQF) for the country, which was notified on 27 December 2013. It is a quality assurance framework that organises all qualifications according to levels of knowledge, skills and attitude. These levels, graded from one to ten, are defined in terms of learning outcomes, which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. The NSQF sets

common principles and guidelines for a nationally recognised qualification system covering Schools, Vocational Education and Training Institutions, Technical Education Institutions, Colleges and Universities.

It is under this backdrop that Pandit Sunderlal Sharma Central Institute of Vocational Education (PSSCIVE), Bhopal, a constituent of the NCERT has developed learning outcomes based modular curricula for the vocational subjects from Classes IX to XII. This has been developed under the Centrally Sponsored Scheme of Vocationalisation of Secondary and Higher Secondary Education of the Ministry of Human Resource Development.

This textbook has been developed as per the learning outcomes based curriculum, keeping in view the National Occupational Standards (NOS) for the job role and to promote experiential learning related to the vocation. This will enable the students to acquire necessary skills, knowledge and attitude.

I acknowledge the contribution of the development team, reviewers and all the institutions and organisations, which have supported in the development of this textbook.

The NCERT would welcome suggestions from students, teachers and parents, which would help us to further improve the quality of the material in subsequent editions.

ABOUT THE TEXTBOOK

Plumber General II is an important job role in the installation and repair of plumbing fittings and fixtures in contractors' segment. This module aims to equip the student with the skills for installation, repair maintenance and servicing of pipes and sanitary fixtures in housing, commercial and institutional set-ups. A Plumber General should be able to work independently on the assignment, and be comfortable in performing laborious work, should be a good listener, good at talking and following instructions, a good team player, result oriented with a positive attitude.

After completing this module of Plumber General II, the student will be able to—

- understand and use the term plumbing
- identify power tools used in plumbing and sanitary fixtures
- install basic plumbing and their maintenance
- repair construction of basic plumbing

On completion of this course, a student can take up a higher level course for a job role in the plumbing sector at the diploma and degree level.

The textbook for the job role of Plumber General II has been developed to impart knowledge and skills through hands-on learning experience, which forms a part of experimental learning. Experimental learning focuses on the learning process for the individual; therefore, the learning activities are student-centred rather than teacher-centred.

The textbook has been developed with the contribution of the subject experts, vocational teachers, industry experts and academicians, for making it a useful and inspiring teaching-learning resource material for the vocational students. Adequate care has been taken to align the contents of the textbook with the National Occupational Standards (NOS) for the job role so that the students acquire the necessary knowledge and skills as per the performance

criteria mentioned in the respective NOS of the Qualification Pack (QP) PSC/Q0110.

1. PSC/N 0101 Installation of basic sanitary fixtures, fittings, related piping and accessories
2. PSC/N 0102 Repair of basic plumbing systems
3. PSC/N 0115 Installation and repair of advanced sanitary fixtures
4. PSC/N 0108 Coordinating with the senior and other working team
5. PSC/N 0109 Maintain a healthy, safe and secure working environment

In this textbook, Unit 1 gives an introduction to plumbing and its importance. Unit 2 focuses on the tools used in plumbing. It includes the various types of manual tool required for carrying out plumbing tasks. Unit 3 deals with the use of power tools. Unit 4 discusses the installation of basic sanitary fittings and fixtures. Unit 5 deals with the repair of leakages in basic fittings and fixtures and Unit 6 discusses about performing various plumbing related operations and procedures.

I hope that this textbook will be useful to the students who will opt for this job role and their teachers. I shall be grateful to receive suggestions and observations from readers which would help in bringing out a revised and improved version of this textbook.

ACKNOWLEDGEMENTS

The National Council of Educational Research and Training (NCERT) expresses its gratitude to the members of the Project Approval Board (PAB) and the officials of the Ministry of Human Resource Development (MHRD), Government of India, for the financial support to the project for development of learning outcome based curricula.

The Council acknowledges the contribution of the members of the Review Committee for sharing their expertise and time. The Council would also like to thank Rajesh Khambayat, *Joint Director*, PSS Central Institute of Vocational Education (PSSCIVE), Bhopal for providing support and guidance in the development of this textbook.

The Council is also grateful to Saroj Yadav, *Professor* and *Dean* (Academics), and Ranjana Arora, *Professor* and *Head*, Department of Curriculum Studies, NCERT, for their sincere efforts in coordinating the review workshops for the finalisation of this book.

This textbook would not have been possible without the support of the Indian Plumbing Skill Council (IPSC), New Delhi. We would like to acknowledge and thank IPSC for giving us the permission to use the pictures in this textbook.

We extend our gratitude to all the contributors for selflessly sharing their precious knowledge, acclaimed expertise and valuable time, and positively responding to our request for development of the textbook.

We are thankful to the course coordinator Saurabh Prakash, *Professor*, Department of Engineering and Technology, PSSCIVE, Bhopal, for his untiring efforts towards developing the content for this textbook and also providing photographs used in the textbook. The images used other than these are under Creative Commons License. The contribution of Kuldeep Singh Patel, *Junior Project Fellow*, and Avinash Singh, *Consultant*, Department of Engineering and Technology, PSSCIVE, Bhopal is also acknowledged.

The Council also acknowledges the copyediting and proofreading by Garima Syal, *Editorial Assistant* (Contractual), Publication Division, NCERT. The efforts of Pawan Kumar Barriar, *DTP Operator*, and Naresh Kumar, *DTP Operator* (Contractual), Publication Division, NCERT; Akhilesh Kashiv, *Computer Operator*; Vikas Kumar Kogey, *Graphic Artist* (Contractual) and Pinki Tiwari, *Graphic Designer* (Contractual), PSSCIVE, NCERT, are also acknowledged.
